About “In a World Full of Zombies I’m the Only One Who Doesn’t Get Attacked”

After this title became popular as a web novel, it was published, then made into a comic by Frontier Works Inc. It is gaining more and more fans on social media.

Takemura, an antisocial former office worker, has his life changed in an instant when the world suddenly becomes infested with zombies. Somehow, he's the only one that doesn't get attacked by them. “Helping others? Forget it. I’m going to live in this world freely.” In this apocalyptic world, Takemura has gained immense power. Living while hiding the fact that zombies won't attack him, is he a hero or something else entirely...?

It's refreshing to see a character who seems to only care for himself grow by helping others- not because he wants to, but because it's the only way for him to get what he needs. Of course, on top of the conflict with zombies, there is a lot of conflict amongst the different factions of people trying to survive. This manga is jam-packed with detail and plot twists that both zombie action fans and those who've never tried the genre won't be

able to get enough of!
