Obey Me!, the Mobile Game With 3 Million Downloads Across 166 Countries, Is Now Available on the Galaxy Store!

“Obey Me!” a dating simulation game for mobile platforms by NTT Solmare Corporation (Headquarters: Osaka, Japan; President: Toshiaki Asahi, hereafter referred to as “NTT Solmare,”) is now available in Samsung Electronics Co., Ltd’s Galaxy Store.

Obey Me!, a dating simulation game, was first distributed via Apple’s App Store and Google’s Google Play Store in December 2020. The game has amassed a total of 3 million users, and has obtained the very high ranking of 4.8 out of 5 stars (as of January 2021) on the App Store.

Obey Me! also took first place in Tumblr’s (Tumblr, Inc., US.) “2020’s Top Mobile Games” and “2020’s Top Video Game Characters” categories in their “Year in Review 2020.”

Due to the high demand among our users, we begun preparing to add Obey Me! to the Galaxy Store — a project which has now been successfully realized.

With the addition of Obey Me! to the Galaxy Store, we hope that the game will be able to reach even more otome fans across the world.

About Obey Me!

In Obey Me!, you get to make seven handsome demon brothers, each with their own personalities, do your bidding as you enjoy different methods of communication with them.
